12.01.2016

The **Munich Lecture in TEFL** (Teaching English as a Foreign Language) is a new format initiated by the Chair of TEFL at the University of Munich. We invite outstanding international scholars in TEFL to present their projects to Munich researchers, students and teachers.

The programme establishes a public platform of excellence for the presentation of current findings on today's most relevant issues in the theory and practice of teaching and learning English as a foreign language.
